The “Priority List” contained in the IUP identifies projects proposed for loan fund awards. The list of projects has been prioritized in accordance with the criteria approved by the Board. Potential loan recipients with projects shown on the “After Planning List” are encouraged to continue working on their projects. Funds may become available for award to these projects should funded projects fail to meet the established deadlines of the priority system. Released funds will be made available on a first-come, first-served basis to projects which proceed and meet all requirements for loan award.
